6 Work Days Punishment Dealt To 4 Male Subjects

Girls Given Year Probation; Work Starts & Runs 3-Consecutive Weeks

Fire Closure Ordinance To Be Fully Enforced

It just doesn't pay to violate the laws of the City of Sierra Madre and especially the Ordinances pertaining to the "Closed Fire Area," that is unless you would like summary probation.

All seven of the persons appeared in the Pasadena Municipal Court, Division 11 at 2 p.m. on Thursday, August 21, and pled guilty to the charge of being in the Closed Fire Area, in violation of City Code Section No. 5134.

The Judge listened to their plea and then sentenced all seven to 15 days in the County Jail, but suspended the sentence and placed all seven on one year's summary probation.

One, absolutely no one is happy about the punishment dealt out to these people, but when life and property are threatened and action is required to continue protecting them, then and only then violators must with be dealt with and dealt with in the vein that not only will teach them to obey those laws, but will give warning to all others that the same fate will be theirs should they become violators.

The work has been scheduled to be accomplished by the boys working Saturday and Sunday for three consecutive weekends. The work crew base is located at the Oak Grove Ranger Station.

Wide Diversity Of Experience

With the new location of Diane's Fashions & Imports in the El Rancho Shopping Center in Arcadia, residents in the area will have the opportunity to select from the special qualities of fashion offered by Diane and Bill Quon, owners.

In addition to Diane's years of experience in the world of fashion, Bill offers a diversified background. During the war years, he was the engineering consultant of Consolidated Vultee Aircraft in Washington, D. C. to the State Department and to the Pentagon. In addition he has worked out and directed the training program for top engineers and scientists from China in American factories with post-war planning.

He was a staff member of the presidential campaign for General Dwight D. Eisenhower and Dick Nixon in 1952 in San Francisco and in 1956 in Los Angeles. Active in many civic organizations, he is listed in "Who's Who in the West," "Dictionary of International Biography," "Royal Blue Book" and is a member of the Society of Motion Picture and Television Engineers of Hollywood.

Duckett-Wilson Make Bid For Public Parking Lot

The Duckett-Wilson Development Company, the proposed developers of the area now containing the Robert's Market, presented a plan for the exchange of City owned parking spaces within the proposed area. The proposal was accepted by the City Council in form and after discussing the proposition with the City Attorney, ordered him to prepare the necessary papers for the exchange with noted corrections in the proposed plan.

The plan is to make an even exchange of property, with no monies involved, that the area now owned by the City be moved from the back of the lot and brought to the corner of Sierra Madre Blvd. and Baldwin.

A five point condition was given the Council which included the following:

1. The reservation of an easement over an area approximately 25' x 25' including the corner radius at the intersection of Baldwin Avenue and Sierra Madre Blvd.

As an additional agreement the developers agree to fully improve the lot in general conformance with the plot plan and maintain the lot for a period of 50 years. Maintenance of all lighting, landscaping, including periodic sweeping, repair and replacing the parking surface and landscaping if necessary.

Scouts, Student Body Groups, etc. provided expenses incurred for cleanup don't become so great as to be detrimental to the City Parks and Recreation Department.

5. Minimum rental of facilities: Two (2) hours.

6. Cancellation of a reservation less than five (5) days prior to date reserved shall result in forfeit of the entire fee.

7. Permits shall be subject to cancellation with reasonable notice if the needs of the Parks and Recreation Department make it necessary or desirable.

8. Permits for use of these facilities shall be issued to responsible adults only.

9. For organizations and groups to be eligible for refund of deposit, facilities must pass inspection by the Director of Parks and Recreation or his designated representative.

10. Groups using any facility on a regular schedule (weekly or bi-monthly)

Delighted With Sierra Madre

Restaurateur R. Devigne And Family New Residents

Sierra Madre has always boasted the epitome of the talented and gracious persons living within her city limits. Since her early days, professionals, businessmen, and connoisseurs of all types and backgrounds have been among the citizenry.

The latter part of July, a restaurateur and his family moved to Sierra Madre not only because it was closer to the location of the restaurant, but because they fell in love with the once famous "Wistaria City."

Rene Devigne is no ordinary restaurateur. First he is French. Secondly, he has been in the epicurean profession since he was 9 years old when he used to work in his father's French restaurant washing dishes and any other odd jobs some one of his age and size could handle. For this reason, Rene has done every phase of the profession from washing dishes, bussing, cooking to managing. This makes him a very handy, empathetic employer and host. The gourmet cuisine served in Rene Devigne's Chalon Restaurants is of the finest quality as are the

Money Asked For Select Streets

At its regular meeting of Tuesday, August 26 the City Council made application to the County of Los Angeles to release \$15,202 from the County Aid to Cities for the use for the maintenance of streets on the City's approved Select System.

The money when received will be used on various select streets which excludes any expenditure for State highways. This application will be processed by the Los Angeles County Road Commissioner.

Schools To Open Doors On September 15

Schools within the Pasadena Unified School District will open their doors for classes on September 15 when the fall semester begins. This year elementary school pupils will start day at 8:30 a.m., junior high students a half-hour earlier at 8:00 a.m. while the senior high students will start at 8:45 a.m. 12:15 p.m. is the time set for afternoon kindergarten to begin.

End of the school day release time will differ slightly for the elementary pupils depending upon the programming at the various schools. Junior high students, who are beginning an hour earlier than last year, will be released at 2:30 p.m. — an hour earlier than last year.

Senior high school pupils have a shorter day this year due to a cutback from six to five periods per day and will be released at 2:15 p.m.

Beginning September 2, from 8 a.m. to 4:30 p.m., Monday through Friday, elementary school children new to the district may be registered at the school they will attend. Parents not certain where their children will attend may find out by calling the office of Miss Grace McFarland, assistant superintendent for elementary schools, 795-6981, extension 247.

Frederick Hawes Now In Training Work

Navy Ensign Frederick J. Hawes, son of Mr. and Mrs. Russell S. Hawes of 146 W. Grand View Ave., Arcadia, and husband of the former Miss Elaine D. Manolakes of 11929 La Serna Drive, La

SGT. JOHN SAMONY, on behalf of Chief of Police James Zurcher, accept Helmet Badge Plaque from English Bobbie Sgt. Clifford Tooze, as a memento of his visit and in appreciation for the kindness shown to him on his tour of the local Police department. The department was also host to a Pennsylvania Patrolman, William Smith from New Scwickley Township, who is visiting his parents, Mr. and Mrs. Victor Smith of Hastings Ranch.

TAX RATE SET BY COUNCIL

The City Council at its regular meeting of August 26 passed Resolutions Numbers 69-52 and 69-53 which will be of prime interest to all taxpayers come this November when they receive their annual tax notice from the tax collector.

The first Resolution establishes the amount of money to be raised by taxation for the fiscal year 1969-70 and amounts to \$428,934 plus \$2,671 for lighting districts.

Having been adopted the request now goes to the Tax Collector who will apply this amount of money to the assessment and send out the necessary bills.

Resolution Number 69-53 establishes the tax rate that the Tax Collector shall use in determining the amount the Taxpayer owes and was for the amount of \$1.7545 cents per \$100 valuation with \$1.1347 being the assessment in the lighting district.

This amount has now become a lien against the property of Sierra Madre with the tax bills being sent out to the people around the latter part of November, just in time to include in your Christmas shopping lists.

Lot No. 16 Of Tract Assessed

At their regular meeting of Tuesday, August 26, the Sierra Madre City Council adopted Resolution No. 69-55, which assessed a charge of \$2,238.44 against Lot 16 of Tract 27459, more commonly known as Nuetzel Tract, Sierra Madre Estates and now Greenglen.

The assessment was for this property which was involved in a nuisance abatement procedure initiated on December 20, 1968. It was declared to be a public nuisance and ordered to be abated through the construction of a desilting basin with a sandbagged spillway. The January storms hit before the work could be completed, causing extensive damage to adjacent property as a direct result of the nuisance which has been declared.

After hearing the protests

SMPD Hosts 'Bobbie' and Pennsylvania Patrolman

It was not a case of extradition on an international level, but more of a "busman's holiday," which found an "English Bobbie" in evidence at the Sierra Madre Police station one evening this month. With the termination of his five week vacation fast approaching, Sgt. Clifford Tooze of the Lincolnshire County Constabulary, through arrangements made by his brother Trevor Tooze of this community, and acting Watch Commander Sgt. John Samony, received a tour of our police facilities.

During the evening he compared law enforcement methods and procedures, talked with some of our officers and spent some time patrolling the city in a Radio Car.

A calm, unassuming gentleman, Sgt. Tooze has been in the Constabulary for 13 years, having joined after his discharge from the Royal Navy. At this particular time there was an acute shortage of men in all types of employment, including law enforcement. The benefits and the thought "I might like it" brought about his formal application for the Constabulary. He did like the profession from the very start and has liked it ever since.

A 'Constabulary' is about the equivalent to a State Police type organization or very much like that of Illinois or Iowa where investigations are made.

Sirens Blow Friday, Aug. 29

Civil Defense sirens of the city of Sierra Madre and the County of Los Angeles will be sounded Friday, August 29 in a combined test of the attack warning systems, which is scheduled for 10 a.m., Sheriff Peter J. Pitchess announced.

As is customary in these month-end tests, the siren will be sounded for one minute in the familiar undulating tone. In the event of an actual attack, said Pitchess, the sirens would be heard from three to five minutes.

35 Year Resident of SM

July Services Held For Teacher, Ruth Gardner

Ruth Taylor Gardner, of 46 E. Mira Monte Ave., a resident of Sierra Madre for the past 35 years, passed away very suddenly July 10 in the Altadena Community Hospital.

Services were held Monday, July 14, in a Monrovia funeral chapel, with interment in Forest Lawn Memorial Park in Glendale.

She was born in Wilmington, Ohio, September 15, 1896. She received her early education in the public schools of Wilmington, Ohio, and came to California December 15, 1915, with her grandmother Rebecca F. Taylor and her aunt Harriet Taylor, settling in Long Beach, where she had an uncle Dr. V. S. Taylor, practicing dentistry in that city.

She attended University of Los Angeles and also the University of Southern California, preparing for the profession of teaching.

She taught school in Sierra Madre for 30 years.

She was married to J. Walter Gardner from Liverpool, England, who died in 1963.

After she retired from teaching she enjoyed various things of interest to her such as working with

gations of all kinds are handled and processed. Perhaps similar to our L.A. County Sheriff's Department only on an expanded basis.

Sgt. Tooze is assigned to the seaside-holiday resort town of Mablethorpe, on the Eastern coast, where as one of two sergeants he commands about 15 men. Mablethorpe

Fire Calls Aug. 20 - 27

After being quiet for a period of 234 hours and 9 minutes our Sierra Madre Volunteer Firefighters were called into action two times on Thursday, Aug. 21 within a period of 49 minutes.

The first of the alarms was sounded at 3:07 p.m. to the Willis Tract at No. 1 Carter Avenue, the blaze was reported by Darrell D. Over of 500 N. Baldwin.

Engine 424 arrived in 2 minutes and 15 seconds to find a full scale grass and brush fire in progress and spreading fast to the north toward the house.

Engine 423, also responding, immediately advanced to the house to block possible flames from the buildings. Containment of the fire was in 15 minutes, and about that time Forest Service Camp crews arrived to build a trail around the affected area.

Twenty Regular Firefighters and three Reserves answered the alarm with Engine 425 responding on standby basis, also responding was truck 421 and car 426. Engine pump 424 was in pump for a total of 48 minutes using approximately 2000 gallons of water.

Having received the orders from Chief Charles Brown to pick up the equipment, Engine 424 was in process when the second alarm sounded at 3:57.

Engine 423 responded in laying 400 ft. of 2 1/2 inch hose with Engine 424 responding as standby within two minutes.

Upon arrival it was found

Alcoholic Beverages At Center

The City Council at its regular meeting of August 26 gave discussion on the possibility of adopting an ordinance which will allow Alcoholic Beverages to be dispensed within the new Community Recreation Center. The Ordinance was not introduced but held over for further consideration after the opening of the Community Center, now set for September 27.

The summation of the ordinance as now written, but which may have added provisions when discussed again after more details of its needs are given consideration, are mainly:

—Please turn to Page 5

Yep, you guessed it... it's the end of August, the greatest month of the year, and I am now one year older... August is the month of the "Jon Heated." Any one that claims this month would have to be with all the heat, but I have gotten through it for 57 years so there really isn't any reason to start griping this late in the game.

— CT —

Course the days do pass away in a hurry and there are always 365 of em. Just like the young fellow that went into a local store and applied for a job with the following remark to the proprietor: "Before I take this job, tell me, are the hours long?" and the proprietor came back with the appropriate answer: "No, only 60 minutes each." To me I find that some are longer and some are shorter, depending whether I am at work or at home.

— CT —

Another thing I have discovered with older age and that is your hearing. Either you do not hear as well as you used to, or you have heard most of the things that you are being told and just do not pay any attention. I find that it is a great subterfuge. If you don't hear you don't have to react, and generally the talker goes off shaking his head about the old man who can't hear anymore. Some of the younger generation, I think, have gotten the same idea.

— CT —

Take the young man from the hill country for instance. He was being given his Army induction physical. As he concluded the test, the doctor asked: "Do you have any scars?"

— CT —

The young fellow very politely said "I reckon as how I ain't, Doc," and he looked around the room, "Ifen I could get mah clothes, I could let you have a cigarette." Now this boy has something there and if he continues to use it in the Army he should do quite well.

— CT —

Just like a bookstore in Pasadena the other day received a letter from a former customer who said: "Please send me the name of a book on hygiene, I think I got it." Now this customer better see a doctor right away, she may have something there.

— CT —

When we get to the end of August, naturally we are getting close to the time when our schools will be back in session, it will be the end of vacation for a lot of young people, and the start of a vacation, so to speak, for a lot of mothers. School is the start of the fall months, Thanksgiving and Christmas. Oh yes, take heed all you good Christmas Shoppers, we have only 99 more shopping days until Christmas and that is counting today. Now all you Seventh Day Adventists, you had better put on the Hurry Up and don't be late Shopper bit, for you only have 62 more shopping days till Christmas... Isn't time wonderful.

— CT —

Time sure passes fast, take for instance back in 1893 Mr. A. M. Freeman filed a patent for a seat belt and it was Thomas Flyer automobile in the year 1907 who installed them as standard equipment. After that time we never saw hide nor hair of them until about 1963, now they are standard equipment and a must on most automobiles... see it didn't take long.

— CT —

What baffles me in time is why some ablebodied capable people start making

—Please turn to Page 13

ALL THAT WAS LEFT OF A 4-car garage at the Guy Steinberger property at 529 Mariposa after fire struck at 6:35 Friday evening. Firefighters kept the fire within the garage area with only a scorch to buildings within six feet one side and 10 feet on the other side. Chief Brown compliments his men on what is termed a "Fast Stop." It was a beautiful job by the local boys, Arcadia Fire Department under a Mutual Aid Agreement, stood by at the local station to answer any other call.

**Anoakia School Ready To Open**

Anoakia Elementary School of Arcadia announces the appointment of Mrs. Zona Bond as Acting Director for the fall term.

Mrs. Wilbur Nixon, who has been with Anoakia nine years, the last eight as director, is retiring. Her husband Wilbur, is also retiring, after 40 years of teaching, eleven of which, were in the Pasadena School System. They are moving to their beach home.

Mrs. Bond has been associated with Anoakia Elementary School for six years, first as a teacher, and more recently, in addition to teaching, assisting the director, Mrs. Nixon, in administrative matters. After finishing Valley City State Teachers College in North Dakota, she taught several years in the Elementary Grades before moving to California. Mrs. Bond is married, has two children and lives in Pasadena.

The same high academic program will be maintained and she will be introducing some new methods designed to help the individual child. Testing for all new students will be held in August and September. Appointments may be made by calling the school office.

Leslie Jardine returned Wednesday afternoon, August 20, by air from Northern California. She had spent the last week with friends in Citrus Heights, which is just outside of Sacramento. Much swimming, sunning, barbecuing and general relaxing was done. You can tell by the healthy tan, Leslie has, that she must have had a wonderful time.

The U. S. food supply is unsurpassed in both quantity and nutritional value, and persons who are in good health and who eat a variety of foods have no need to worry about nutritional deficiencies.

Know**THE FOOD**

You Eat

by JEANNETTE

EDITOR'S NOTE: When her children were young and full of questions, Jeannette Heasley found herself looking up the why of the food her children ate and asked questions about. She would write them down and after explaining them to the satisfaction of her children, filed them away for future questions. Now that her children are grown, she extracted them from the Heasley Archives and is sharing them with you in a weekly column.

The Astronauts and their wives have been winned and dined by President and Mrs. Nixon with a feast that will long be remembered. I doubt that the guests or even those involved in the planning and the preparation of the food know much about the origin of the ingredients used in some of the very fancy names that were on the menu.

The first course was Darné de Saumon Commo-dore, which was salmon garnished with prawns (shrimp), oysters and truffles topped with crayfish butter.

The truffle is a fungus belonging to the tuber family, with a slightly onion flavor. The edible portion is a warty, bluish-black fruiting body 2 or 3 inches in diameter. Produced underground, sometimes as much as a foot below the surface. It grows near trees and shrubs, particularly oaks, in southern Europe. Truffles were known to the ancient Greeks and Romans and have been eaten in Europe for at least 20 centuries. Since they develop underground, finding them is a problem. The soil cracks a little which attracts certain flies to the spot. Trained dogs have been used to locate the truffles, and in the Mediterranean area pigs are used. Thus hunting truffles is quite a sport.

Artichauts Fraîs Dante was the second course consisting of hot artichoke hearts filled with fresh peas and diced tomatoes.

The artichoke is a thistle-like perennial herb. It is native to the Mediterranean, southern Europe and central Asia, and has been known in its present form since the 15th century. Early plantings in this country were made by French settlers in Louisiana, and by the Spanish in California and Florida.

Peas have been known since ancient times, and are thought to have originated in Europe and Asia. They belong to the legume family.

Fromages de Brie Bel Paese, Roquefort, Gaudretras Assorties was the fruits and cheeses which were served. The only fruit specifically mentioned was the Kiwi

COUPON**TEENS**

By Debbi Anderson
and
Carol Hathaway

Carol and Debbi, (that's us) want to apologize for not having an article in the paper for two weeks, but we were both on vacations (really) and we didn't plan ahead like we should have.

At our last Teen Club Meeting, August 19th, we didn't have any official business because there were not enough teen council members for a quorum. Most of the meeting was dedicated to discussion on the past, present and future activities of the Club. Activities that have not yet been dated, but are planned for the future are: a night beach party, Disneyland, football game, snow trip and possibly painting the park house.

September 13 is going to be our first dance at the new Community Recreation Center, (we haven't waited too long or anything!) so we're beginning to get things organized. We'd like a good turn out but everyone has to remember that a lot of us have waited a long, long time for this building and so PLEASE take good care of it. Already someone has thrown a rock through one of the windows and that's a real bummer because a few people predicted something like that and we don't want them to be able to say "I told you so." If you have any questions about any activities then write: Debbi Anderson, care of Sierra Madre News, Sierra Madre, Calif. We'd be more than happy to answer your letters.

Until next week—toodles!

**Lt. David Emerson
Aboard USS Tucker**

Navy Lieutenant David C. Emerson, son of Mr. and Mrs. Lloyd G. Emerson of 111 Suffolk Ave., Sierra Madre, Calif., and husband of the former Miss Mila Enriquez of 24611 B Avalon Blvd., Wilmington, Calif., is serving aboard the destroyer Henry W. Tucker off the coast of Vietnam.

The Tucker provides fire support for ground forces in Vietnam. Air spotters provide the Tucker with detailed information on the location of enemy targets. Using this information the ship can aim its guns at targets which are dangerous to American troops ashore.

The Tucker is homeported in Yokosuka, Japan.

Non-profit, Non-political**Hugh F. Colvin Honored
By National Association**

Mr. Hugh F. Colvin, president of Unitek Corporation, has been named to membership on the National Council of the National Planning Association. Mr. Colvin received a B.S. degree from the California Institute of Technology in 1936 and an M.B.A. degree from Harvard in 1939. He was an engineer for the American Gas Association from 1936-37, the Wilshire Oil Company from 1939-40 and the Union Oil Company from 1940-46. In 1947 he became treasurer and assistant to the president of Consolidated Electrodynamics Corporation. He became vice president in 1953, general manager in 1954 and president in 1956. In 1948 he became treasurer and director of Unitek Corporation. He has been president since 1963. In addition, he is director of Inter-Unitek A. G. (Zurich), the Intel Fund, Inc., Computer Communications, Inc., and Precision Research Corporation. He is a registered professional engineer in California. His memberships include the American Management Association, the College Student Personnel Institute, the Instrument Society of America, the American Institute of Chemical Engineers and the Presidents Association. He has served as a director of the Pasadena Chamber of Commerce and as a member of the Government Expenditures Committee of the United States Chamber of Commerce, and numerous civic, educational, and professional committees. He is a Life Member of the Sierra Club. His home is in Sierra Madre, California.

The National Council, with representative leaders in agriculture, business, labor, and the professions, encourages and promotes cooperation among the major economic groups in the country to find workable solutions to pressing domestic and international problems confronting the United States.

and always ask for BOB

CIMMARON — To the North
dangerous, the South too
populated, to the West too
dark, go east young man,
go east; the climate is
much, much better for our
work — DOUGHBODY

Letters to

Dear Editor:
The following is a letter
to Ben H. Wightman, presi-
dent of the Sierra Madre
Chamber of Commerce:
Dear Ben,
The members of the Police
Department wish to express
their thanks to the Chamber
of Commerce and all the
wonderful people with
whom we had dinner on Fri-
day, August 8, 1969.
"Appreciate your Sierra
Madre Police" week leaves a
lasting impression on all of
us and certainly points out
that we have the support of
the community in dealing
with today's problems.
— James C. Zurcher
Police Chief

Last Day

August 28, will be the last
day for voters to register in
order to vote in the October
21, 1969 school tax elections.
Three school districts will
be presenting tax issues on
that date.

Pasadena Unified School
District, a 99c override;
Pasadena Junior College
District, a 17c override, and
Temple City Unified School
District, a continuation of

Services For Joseph Bruno

Recitation of Rosary will
be Wednesday evening at
the hour of 7:30 and Re-
quiem Mass Thursday morn-
ing at the hour of 9 a.m.
for Joseph G. Bruno, age 82
who passed away at Park-
wood Convalescent Hospital
after a lengthy illness on
Monday, August 25.

Joseph came to Sierra Ma-
dre from Italy some 24 years
ago, living at 420 W. Sierra
Madre Blvd. He was a tailor
at the Passionist Fathers
Monastery.

He is survived by his
wife Anna G. Bruno and
one daughter Pauline Bruno
of Duarte.

Father O'Malley will offi-
ciate at the St. Rita's
Church and arrangements
were handled by Ripple
Mortuary.

PERSONALS

SUSIE Q — 'Tis the end of
another month and what
could be the end of one
of the most outstanding
merchandising special-
ists that 'ole Jack has ever
dreamed up... a triple
header that commands
your attention. The very
last day will be August
30th for you to have your
blankets cleaned and
placed in cedarized poly
bags for only 99c. Elec-
trics just a little more,
you believe \$2.49. The sec-
ond merchandising spe-
cial is Men's Suits cleaned
and pressed for the low
price of 99c and the third
... Yes, I said the third
merchandising special is
that "Working Girl's Spe-
cial" ... 4 Shirts beau-
tifully laundered and
pressed for the low, low
price of 99c, either in
boxes or on hangers.

If you want you can call
and check these prices,
but I have already done
so and you can save the
time, but the craftsman-
ship and the price is the
best that you can get in
the whole of San Gabriel
Valley. Now's the time to
find out that Vogue
Cleaners and Laundry are
in business for you; use
'em — GLORIA

JACK OF DIAMONDS — I
have everything that God
gave me and I know how
to use it; I am not throw-
ing any of them or re-
placing them with substi-
tutes. I will be there
when the roll is called,
you can be sure of that —
CLAMITY

SLAP HAPPY — The bill is
on the way and so is your
notice. Please take due
notice and judge yourself
accordingly. I think I
shall see you soon with
some kind of solution. —
CLARA BELL

HAPPY — I am on to your
idea; I will react on August
29 as you directed. Do
hope that this will be the
solution to all that is de-
sired; will contact you
much later — JOHN HAN-
COCK

ML — Have stored the mak-
ings and sit tight until
the time you mentioned;
man things are hotter
than the noon day sun,
and at midnight too! Now
is not a fit time out for
man or beast, and you,
had better believe it —
SERUTAN

HEY KIDS — How would
you like six days at a
work camp of the Forest
Service? Stay out of the
Fire Restricted area or
you may get it on a sil-
ver platter — C of FP

LUCY — You are barking up
the wrong tree. Step back
a little and get a better
look. Top Cat knows the
place and the condition.
It's up to you all the way
— HASKINS

SANDERS — There are none
so blind that do not want
to see, nor none so deaf
as those who do not want
to hear. Look around you
and listen to those talk-
ing. Your answer will be
short in coming to you
with a blast. Stop all
those silly questions; they
are really embarrassing —
WILMA

SMOKEY'S FRIENDS DON'T PLAY WITH MATCHES

You and Your Neighbor

Nineteen year old Libby
Edwards, daughter of Rev.
and Mrs. Spencer Edwards,
Jr. received a well earned,
very high commendation
from the California High-
way Patrol for her calmness,
mien and skill in handling
her part of what very well
could have been a tragic in-
cident. As one of six adults
supervising 42 girl scouts
from the Sierra Madre Girl
Scout Council she was
aboard a chartered bus en-
route home from a "Western
Wheels" trip that was in-
volved in an accident. Fri-
day, August 22, on the final
leg of the trip home, just
south of the city of Kings-
burg the bus turned over.
Fortunately no one was se-
riously hurt, just shaken up
a little. But a wonderful
and heartwarming happen-
ing took place as a result of
the accident. In addition to
the extreme efficiency and
kindness of the California
Highway Patrol, the people
of Kingsburg came immedi-
ately to help and to offer
help. They brought blan-
kets, cold water, food and
anything else they hap-
pened to think might be of
some use. The citizenry
even helped take some of
the girls to the hospital. The
Lion's Club showed up with
odds of food also. Several
of the victims were kept at
the local hospital for obser-
vation, but the rest of the
travelers were picked up
later in the day by a re-
placement charter bus and
deposited at home base
around midnight, Friday
night. This was only a delay
of about 7 hours as the
Scouts were to have origi-
nally arrived home around
5 p.m. But the girls did not
have to wait alone for the
replacement bus to arrive,
as we mentioned before, the
people of Kingsburg saw to
it that they were comfort-
able, well fed and occupied.
Thanks you, Kingsburg and
CHP, for your kindnesses...
the girls won't forget you.
Of the girls, only two

actually live in Sierra Ma-
dre — Alicia Munger and
Libby Edwards. The 12 day
"Western Wheels" tour tra-
veled all through Northern
California and went as far
North as Shasta before
starting home. It was a
most enjoyable, fun trip and
definitely a wonderful ex-
perience (except for the ac-
tual accident) for the girls.

A nice cool vacation at
lovely, cool Lundy Lake
sounds terrific right now.
Right? Well, that's where
William and Jean Gar and
two children, Bill and Jean-
nie, recently spent a week's
vacation. Lundy Lake, north
of Bridgeport, and June
Lake, is almost 8,000 feet
above sea level making for
cool evenings while the
days are still a fairly warm
80°. Just returned from the
Lake, the Gars had a won-
derful time fishing, resting,
hiking, picture taking, and
in general, relaxing. The
"Big" hike of the vacation
was up UP an additional
2,000 feet to four lakes lo-
cated above Lundy. The
road and trail were in pretty
bad condition due to the
storms this past winter. The
avalanche type snow storms
were the worst in that area
for 99 years and resulted, in
addition to the ruined trails
and roads, the loss of sev-
eral cabins. Jeannie, at 6 1/2
years of age and the young-
est of the two children,
fooled the family and made
the 2,000 foot ascent and
descent without any prob-
lems at all! Mom and Dad
say that they had no prob-
lems on the hike, but if
they are like the rest of us
Moms and Dads... I wonder
...???

Mr. Garr, who has his own
radio show, is currently
broadcasting from the Race
Track at Del Mar.

Alcoholic

That the time will be
valid between the hours of
11:30 a.m. and not later
than 1 a.m. of the follow-
ing day. The permits will
be issued for weekdays and
Saturdays only.

The permit, when issued,
will not allow any person
under 21 years of age to be
present, and upon specific
approval of the City Coun-
cil and will be issued to
only "Local" non-profit or-
ganizations that have con-
ducted regular meetings or
activities within the City of
Sierra Madre for a period of
at least one year prior to
the date of application. Non-
profit shall refer to an or-
ganization organized or in-
corporated for educational,
civic, charitable, religious or
cultural purposes, having an
established membership,
of administrative expense for the
Employees' Retirement System, the sum
of thirty-six thousand dollars 36,000

No permit shall be issued
where the use of such per-
mit would directly conflict
with regularly scheduled
church or juvenile activities
in the facility or the imme-
diate area. The second read-
ing of the ordinance will be
September 9, 1969.

Lot No. 16

The City Council passed the
resolution which gave the
owners 30 days in which to
pay the costs after which, if
not paid, will be charged
against the property as a
tax lien pursuant to the
Municipal Code.

Frederick Hawes

Mirada, is serving with
Training Squadron Thirty-
One at Naval Air Station
Corpus Christi, Texas.
The squadron trains stu-
dent Naval Aviators in
Grumman Tracker aircraft
which are used in both
land and aircraft carrier
operations.
Students completing their
training with the squadron
are awarded their "Wings
of Gold" and designated
Naval Aviators.

Wash To Be

sent to all concerned parties
that might have some lever-
age in the project.
Answers have been re-
ceived from all parties, and
each of them state that the
project cannot be stopped;
that it will proceed and that
the time to expect the start
of the project will be early
spring of 1970.

The project started in
1967 as a \$750,000 project,
in the year 1969 the estimate
was raised to \$995,000. It
would not surprise any of
us that when the final bids
are in and the project is
underway that the reaign-
ment and replacement of
the Sierra Madre Wash will
run into figures closer to
\$1,225,000.

Adjourned Meeting
Notice is hereby given
that at the conclusion of the
regular meeting of the
Planning Commission of the
City of Sierra Madre, on
Thursday, August 21, a mo-
tion was made and carried
to adjourn to Thursday,
September 11, at 7:30 p.m.
in the Council Chamber of
the City Hall for the pur-
pose of a study session,
present tax rate.

SIERRA MADRE NEWS

RESOLUTION NO. 69-52

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF
SIERRA MADRE FIXING THE AMOUNT OF MONEY NECESSARY
TO BE RAISED BY TAXATION FOR THE FISCAL
YEAR 1969-70

THE CITY COUNCIL OF THE CITY OF SIERRA MADRE DOES
RESOLVE AS FOLLOWS:

SECTION 1. That the amount of money necessary to be raised
by taxation for the fiscal year 1969-70 upon the taxable property
within the City of Sierra Madre is as follows:

(a) For the General Fund, the sum of two hundred sixteen thousand, eight hundred three dollars	\$216,803
(b) For the Park Fund, the sum of one hundred three thousand, eight hundred fifty-three dollars	102,853
(c) For the City Library Fund, the sum of seventy-three thousand, two hundred seventy-eight dollars	73,278
(d) For the City's contribution and share of administrative expense for the Employees' Retirement System, the sum of thirty-six thousand dollars	36,000

The total amount for all of said purposes being and it is hereby fixed as the sum of four hundred and twenty-eight thousand, nine hundred thirty-four dollars

SECTION 2. That the amount of money necessary to be raised
by taxation for the fiscal year 1969-70 to defray the expense of
maintenance and operation of the Lighting and Maintenance Districts
of said City is hereby fixed (pursuant to Section 18730 of the Streets
and Highways Code of the State of California) at:

District No. 1, the sum of \$ 290
District No. 3A & B, the sum of 2,381

SECTION 3. The City Clerk shall attest to the adoption of this
Resolution and its approval by the Mayor and shall cause the same
to be published once in the Sierra Madre News, a newspaper of
general circulation, printed, published and circulated in the City of
Sierra Madre.

ADOPTED AND APPROVED this 26th day of August, 1969.
Robert C. Hartman
Mayor of the City of
Sierra Madre, California

I, L. MARIE WARFEL, hereby certify that the foregoing Resolu-
tion was duly adopted by the City Council of the City of Sierra
Madre at a regular meeting held on the 26th day of August, 1969,
by the following vote of the Council:

AYES: Rudolph, Hartman, Rule.

NOES: None.

ABSENT: Simons, Nickoloff.

L. MARIE WARFEL
City Clerk of the City of
Sierra Madre, California

SIERRA MADRE NEWS

RESOLUTION NO. 69-53

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF
SIERRA MADRE FIXING THE RATE OF TAXES AND
LEVYING TAXES FOR MUNICIPAL PURPOSES FOR THE
FISCAL YEAR 1969-70

THE CITY COUNCIL OF THE CITY OF SIERRA MADRE DOES
RESOLVE AS FOLLOWS:

SECTION 1. That for the purpose of raising the sums of money
necessary to be raised by taxation upon the taxable property in the
City of Sierra Madre for the fiscal year 1969-70, the rates of
taxes are levied on all taxable property in said several portions of
said City for said fiscal year, in the number of cents upon each
one hundred dollars of assessed value of said property as assessed
by the County Assessor and as equalized by the Board of Equaliza-
tion of the County of Los Angeles, as follows, to-wit:

TAX DISTRICT NO. 1 (Being the entire City of Sierra Madre)	Rate
(a) For the General Fund, eighty-eight and six-tenths cents	88.60c
(b) For the Park Fund, forty-two and one-tenths cents	42.10c
(c) For the City Library Fund, thirty cents	30.00c
(d) For the City's contribution and share of administrative expense for the Employees' Retirement System, fourteen and seventy-five hundredths cents	14.75c
Total District No. 1, one hundred seventy-five and forty-five hundredths cents	175.45c

That the rate of taxes necessary to be levied for the fiscal year
1969-70 to defray the expense of maintenance and operation of the
Lighting and Maintenance Districts of said City shall be and the
same is hereby fixed and levied (pursuant to Section 18730 of the
Streets and Highways Code of the State of California) at the fol-
lowing rate, upon each one hundred dollars of assessed valuation of
taxable land, exclusive of improvement in each District.

RENDEZVOUS

Letters To the Editor . . .

Dear Friend:

On behalf of Ringling Bros. and Barnum & Bailey Circus I would like to take this opportunity to thank you, and all our friends in media, for all your wonderful help and cooperation in making the Southern California engagements of the Greatest Show On Earth a success.

For me personally, it is always a pleasure to work with you and I want to extend my thanks for all the help I have received over the years.

May good luck be yours and may your life be like our three ring circus, always filled with happiness.

Kindest regards,

—Mrs. Shirley Carroll

Attend the church of your

SMPD Hosts Bobbie and Penn. Officer

lethorpe is in Lincolnshire County, which is second in size only to the county of Yorkshire. You must remember that in England, a County is comparable to a State here. Because of the very size of the county and for governmental purposes, Lincolnshire County is divided up into three administrative areas and consequently, the Constabulary is also divided into three areas also. Those three areas are Lindsey, Holland and Kesteven.

While pursuing his duties, which is done on foot, bicycle and sometimes automobile, Sgt. Tooze wears a uniform not unlike that of a Naval officer — dark navy blue pants and jacket with white shirt and tie. The only insignia on his uniform is three very large chevrons (right side up, that is, with the point down) on the right sleeve and, at the

top of the right arm, just below the shoulder seam is a silver bar with the numbers "669." No name plate or badge number, just the silver identification bar and this is Sgt. Tooze's identification as far as the public is concerned. The badge or insignia of the Lincolnshire County Constabulary is worn on the familiar and traditional 'Bobbie' helmet. There is a cloverleaf within the center of the starburst-like badge with the three initials L, H and K appearing on each petal of the cloverleaf. Naturally, these stand for the three areas of Lincolnshire County.

In making comparisons and comments about law enforcement here and in England, Sgt. Tooze hastens to add that in comparing the similarities he is only speaking of "Law enforcement as I know it." He feels that Sierra Madre and Marblethorpe are very much alike in many respects. Populationwise there are only about 10,000 permanent residents, however, being a resort town there are many transients which necessitates more dealing with the public than perhaps is done in Sierra Madre. Another difference is that the Sierra Madre Police are more mobilized which Sgt. Tooze says "Is probably due to the roads and traffic. Marblethorpe, while a large area, does not have the roads nor the large number of cars." He feels that we do not properly enforce our bicycle laws, which is something that has always been done in England.

The general criminal in the United Kingdom does not carry a gun and it is not necessary that a constable be armed. If necessary, then certain officers — specially designated and trained — will be armed. Each big police station has a certain number of firearms under lock and key available for occasions which may necessitate the use of such weapons.

The Sgt. has never been armed, never come across a criminal who was armed and furthermore never expects to. He has had to outrun a few though. Not too long ago, it was necessary for Tooze to chase a suspect through two cornfields before apprehending him.

Our country could certainly benefit by the universal emergency system used throughout the United Kingdom. In an emergency all you need do is dial the three numbers "999" and immediately a special operator will answer. (If you are in a phone booth, you may dial those numbers and get help without having to use any coins.) Here you can't even get the operator if you haven't a dime.) The operator will ask you which emergency service you need — "Police - Fire - Ambulance." You are not supposed to tell her your problem, just which one you need, just the one word and she will connect you with the closest service then you tell them what the problem is and your name, etc., etc.

Sgt. Tooze and his wife, Barbara have three children, one girl — Tracy, and two boys — Robert and Paul. The family lives in Marblethorpe in a four bedroom home, rent free — one of the many benefits — owned by the Constabulary.

Before leaving Sierra Madre, Tooze presented a plaque on it in appreciation for the kindnesses shown him on his visit here. Accepting for Chief Zurcher on behalf of the Sierra Madre Police Department was Sgt. John Samony.

Another recent law enforcement visitor to the Sierra Madre Police Department was William Smith who lives in Rochester, Pennsylvania. He and his wife, Eleanore and their two children have been visiting his parents here while on a two week vacation. His parents are Mr. and Mrs. Victor Smith of Hastings Ranch.

Bill, who works in a radio car handling routine duties, is a Patrolman for the New Sewickley Township in Pennsylvania. (New Sewickley is just outside of Pittsburgh.) He was quite impressed with the advancement of California Police Departments. In comparison of our Police Department to his, he felt that Sierra Madre handles an extremely larger volume of work.

Incidentally, Bill's father Victor Smith is a Reserve Officer on the Sierra Madre Police Department and has been for about 3 1/2 years.

Sgt. Samony said that the department was extremely lucky to have such two dedicated and interested law enforcement officers visit and tour our facilities, and it was a pleasure to act as their host and have a chance to exchange views and ideas on a professional level.

Restaurateur and Family New Residents

wines from the extensive Domestic and Imported Wine List. Both Mr. and Mrs. Devigne are very particular about the type of entertainment they put before their customers. Knowing that it is near impossible to please everyone all the time, they none-the-less try and actually seem to accomplish this. Not too a task when you realize that there are three Chalon Restaurants, each located in an entirely different area — Chalon's Pasadena, Chalon's Manchester and Chalon's in Los Angeles.

Rene has managers for the Manchester and Los Angeles Chalon's, but he himself manages and operates the newest one — only two years old — located at 3768 East Colorado in Pasadena, just east of Rosemead Boulevard. Since a restaurateur's day can often be quite full and long — Rene's working day is usually 18 hours — wife Phyllis, sometimes will keep him company on the job, just so she can have a chance to see him. Sunday evenings, you will like as not, find her hard at work, serving as the hostess.

The four Devigne children can hardly wait until they are old enough to take an active part in the family business. Fourteen year old

Mike, who is well over six feet and quite handsome, fills in as a bus boy from time to time. Other children, still too young to help out, are Karen (15), Tom (12) and Donna (11). Karen who is crazy about horses, has been a Candy Stripper for the past two years. The admirable young lady will be a student at PHS next fall while Tom and Mike will attend Wilson Junior High. Youngest of the brood, Donna will be a student at Sierra Mesa. Three family pets made the move to Sierra Madre with the Devignes. The trio, a German Shepherd, a pocket size Poodle and an independent cat all are apparently adjusting to the move.

With just the everyday running of Chalon's Pasadena, in addition to Fashion Shows, special parties, banquets and wedding receptions, all beautifully appointed, Rene does not have any leisure time for hobbies of any kind. Phyllis, who has painted since childhood, still manages to find some time to further this talent. Music also holds much interest for her and occasionally she will spend an hour or two at the keyboard of the family piano.

It is a pleasure to welcome the Devigne family to Sierra Madre.

Legion Auxiliary Met August 14

Members of Sierra Madre American Legion Auxiliary, Unit 297 gathered at the home of Bertha Billings on August 14 for their regular monthly business meeting.

Since President, Ornelia Henderson is spending two months with her daughter, Twila in Santa Fe, New Mexico, the meeting was conducted by Vice President Thelma Proctor. Debbie Stevens, granddaughter of Past President Effie Pratt was a guest of the Unit. Mrs. Pansy Hearne was welcomed as a new member.

Mrs. Hearn formerly belonged to the organization in South Carolina.

It was announced that Mr. and Mrs. Medley, former Sierra Madreans, who now live in Glendale have recently celebrated their fiftieth wedding anniversary. Mrs. Medley is a sister of the late Henry Olson. Past President, Blanche Buie has been ill for some time.

Mrs. Edith Noshier will attend the annual 18th District rehabilitation committee meeting in Monrovia on August 16. Several members will attend the District meeting on August 18 at the Azusa Legion Club House.

The next meeting will be a pot luck picnic at the park by the swimming pool at 6:30 on August 28.

Rainbow Girls' Schedule Busy

The Rainbow Girls of Arcadia Assembly No. 131 held their regular meeting on August 19 and also initiation for a new member, Miss Sharon Berck, daughter of Mr. and Mrs. Steve Berck, 5464 Maple Tree, Arcadia. Miss Berck is a student at Arroyo High School in El Monte, and was welcomed into the Assembly by the presiding officers, Miss Mary Koumas, Worthy Advisor.

It was announced that the girls' handling of the Little League refreshment stand at Vista Park during the spring and early summer had been highly successful. Miss Vicki Betts was chairman of this project.

The annual salad bar luncheon and fashion show, in charge of Miss Debbie Church, held at the Masonic Temple on August 23, has also proven to be a worthy, while fun event for the girls and friends of the Assembly. Everyone is now looking forward to an ice cream social on Sunday, September 7, between 1 and 3 p.m., to be held at the home of Miss Koumas in Arcadia; anyone interested in further information is requested to call 355-2880.

As a service project Rainbow Girls will be collecting items of rummage soon in this area to be given to the sale which will benefit the work of the Sierra Madre Search and Rescue Team. The girls will appreciate your help as this is a very worthy cause.

Needlework Guild Meets August 28

The Sierra Madre Chapter of the Needlework Guild of America will hold their monthly meeting on August 28, at the home of Jane Nielson on Carriage House Road in Sierra Madre.

The Needlework Guild of America is a philanthropic organization that assist hospitals, orphanages, homes for the aged and other institutions by its contributions of needed articles. The collection of these articles are known as ingatherings and take place once a year in October.

Community Center Dedication Sept. 27

Parks and Recreation Ends Full Summer Schedule

Last Swim Lessons

The sixth and last session of swim lessons will begin on Tuesday, September 2. The program, which is conducted by the Sierra Madre Parks and Recreation Department, will include classes for tiny tots, advanced tiny tots, mother and me, beginners, intermediate and swimmer. Evening classes will also be held for adults and tiny tots. Day classes are conducted Monday thru Friday, excluding Labor Day, between 9 a.m. and noon. Evening classes are held at 6:30 p.m. Monday thru Thursday. The fee for all classes is \$5. Registrations can be made at the Municipal Pool at Sierra Vista Park. Call 355-7135 for further information.

Community Recreation Center Dedication Set

The date of the dedication for the new Sierra Madre Community Recreation Center has been set for Saturday, September 27. Parks and Recreation Commissioner Susan Sidle has been appointed chairman of a dedication committee. The committee includes Mrs. Mert Waite, Mrs. Mary Durr, Mrs. Jackie Knowles, Mrs. Judy Redman, Mrs. Joan Hill, Mrs. Gretchen Kelley, and

Swim Party By Beta Sigma Phi Rho Chapter

Members, husbands and invited guests of Rho Chapter, Beta Sigma Phi, celebrated "California Del Sol" at a swim party on Friday, August 22, at 8:00 p.m. The summer social was held at the home of Mr. and Mrs. Charles O'Rear in Arcadia.

Invited guests included Messrs. and Mmes. Robert Stirett, Ronald Shoup, Jack Gebhardt and Robert Moritz.

Mrs. Jack Lloyd, Social Chairman, was assisted by her committee: Mmes. James Lamb, Bruce Lloyd, Stan Huntington, Gene Boyer, Tom Wilson, Larry Benedict, Wayne Brubaker and Charles O'Rear.

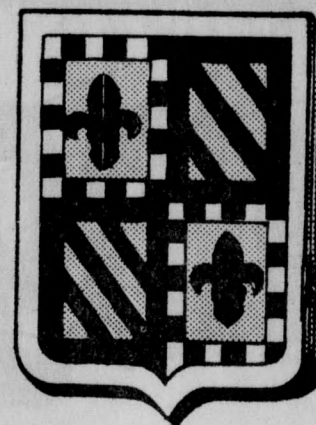

Mrs. Mary Tumilty. The tentative program will include a formal ceremony from 10 a.m. until 11 a.m. followed by an open house and entertainment until about 5 p.m. An all community dance for teens and adults 13 to 113 will be held that evening from 8 p.m. until midnight. All community organizations are being invited to set up displays and information booths for the open house. Anyone interested in providing entertainment or participating in the dedication should contact the Recreation Department at 355-7135.

Neighbors

While the bread winners of the family are working in nice air conditioned offices (!) the wives and children are trying to keep calm and cool these hot days. What better way than in your own swimming pool... That's what Marian (Mrs. Perry) Osborne and her three children — Kirk (12), Carol Ann (10) and Paul (3½) have been doing. Among those friends and neighbors helping them to exercise the pool while getting nice and tan are Millie (Mrs. Thomas) Solury and Tommy (7) and Marian's sister, Carol (Mrs. Frank) Kuchenski and Bob (12), Don (10) and Steve (7).

Nice to hear that Carol and Marian's father, Robert H. Ainsworth, also of Sierra Madre is now home recuperating after a bout in the hospital.

— ☆ —
Arthur and Janice Beggs of 514 E. Montecito are keeping pretty busy these days in the final stages of the landscaping of their new home. But they took time out Friday evening, August 22 for a family birthday dinner, complete with cake and all the trimmings, in celebration of Arthur's birthday. Then the whole family — Mom, Dad, David, Scott and Mary Elizabeth — plan on attending the Aqua Fair at the Sierra Madre Municipal Pool in Sierra Vista Park.

From the FIRE SIDE By One of the Boys

Fire Calls are a particular specimen of aggravation to most firefighters. After over 238 hours of complete silence all hedges break out and you have five and six in a row, it is a mystery how this takes place, but it does and it keeps everyone on his toes.

— SMVFD —
Specially so after a dry time of 168 hours goes by without a call, everyone is on needles and pins for they know the law of averages is soon going to catch up with them, but they do not know to just what extent.

— SMVFD —
Take for instance the call of Thursday afternoon at 3:07, it was a brush fire at Carter and Baldwin. One Reserve who was at home way out in Covina was so anxious to get to the fire, and he felt that his car was not running fast enough, ditched his car along the freeway and hitched a ride with a citizen with a faster car.

— SMVFD —
He claimed that his car "knocked out," but we know this must not have been true, for Engineer Graves accompanied him back to the car, after the fire, and reported that it started off like a well-oiled sewing machine and ran perfectly... seems that some of us get caught in our own web of circumstances.

— SMVFD —
Then there was a certain Captain that was dispatched from his place of work, some distance to the east of us... Seems that he tried to fall in behind a Forest Service truck on the way to the fire... The Captain stated... "Everything went well except at the stop lights... and it seemed that I hit 'em all on red"... But he got there in time to help roll up the hose and go on the second alarm at 3:56.

— SMVFD —
That second alarm was the one that mystified all of us... You know I have often said that a Fire department seldom gets a call to the same address. A resident generally only has one fire to his place in a lifetime, but this has all been "shot down the river in Sierra Madre."

— SMVFD —
Take 60 East Laurel for

instance, this was the third call to this residence in the past four or five months... Two of the calls were while the department was out servicing another fire call... Then of course there is the Willis property... I believe two calls last year and one this year... Near same location... Then there is Grove and Highland, two calls less than a week apart.

— SMVFD —
I will still hang on the theory that very seldom, and I do reduce my remarks to very seldom, does a department have two calls to the same residence for structure fires. Now brush fires are an entirely different story... As long as you have brush on your property, it is a temptation for those that have matches in their pockets.

— SMVFD —
This is one of the biggest reasons for "Weed Abatement" and Fire Prevention will tell you that in April of this year there were possibilities of over 500 places that had green weeds that would be potential for brush and grass fires in July and August if they had not been cleared away.

— SMVFD —
Only 60 of that amount needed special City attention, but as we toured the City on this past Sunday, we find that there is still a great potential, some of the weeds have regrown, and this should be of prime interest to property owners... A brush fire could cost a house or out building, and generally it only takes a couple of man-hours to take care of the hazard... Look your property over carefully.

— SMVFD —
On this above mentioned tour I noted, with great interest that the Canyon Area is just likened to me to a gigantic "bomb" with the fuse openly exposed. Should someone decide to light a match to it... Boom, very little that anyone could do to stop it.

— SMVFD —
Mattresses on the roof, open wires laying on roofs among dry fallen weeds, stacked brush against houses with dry brush all around... My, my, we are extremely lucky, and have been for these many years.

— SMVFD —
Have you noticed the Fire Call stories recently, nearly every one of them record some 20 to 26 men that answer the calls. This is how concerned your firefighters are about your city... Many of these boys that are answering the alarms are losing their hourly salary, but they pledged to give you protection and they will continue to do so, therefore when you can give them some help by eliminating a possible fire hazard, please do not hesitate in doing your best, they need your support.

— SMVFD —
As we write this Monday morning we have had five calls this week and the total for the year is up to 67, and this time last year we had logged in only 38, so the potential must be greater, and we ask all of you and everyone of you... Be careful with matches, and do call your department at the moment you see or smell smoke... It may save your home or that of your neighbor.

Late birthday greetings to "Carrot Top" (also known as R. Robt. Evans) who celebrated his natal anniversary on August 17. Wouldn't dare ask the boss which birthday he observed! (But by the same token I wouldn't tell anyone in regards to my own birthday either!)

SPORTS AS Hank Ives SEES IT

ODE TO FOOTBALL SEASON...

He was sheer devastation when he had the ball. No rival could stop him, no rival at all. The experts agreed. But a Prof in thick glasses accomplished the deed.

HARVEY HYDE AND MYRON TARKANIAN won't be a bit upset about losing Cerritos from their grid schedule. The Falcons are moving into the South Coast Conference with Mt. San Antonio, Fullerton and that group, leaving just seven teams in the tough Metropolitan Conference. The Lancers will open with Compton, September 20, have a week off and then host Mira Costa, October 4. That should be two wins in the bag.

THEN THEY TRAVEL to Rio Hondo, October 11, host El Camino, October 18, have a pair of away games October 25 at Valley and November 1 at Bakersfield. They play Pierce at Horrell Field November 8, go to Long Beach November 15, and closed out the sked by hosting Santa Monica November 22.

HOW FAR INTO THE SEASON will it be before a coach with a few losses under his belt will be met by the Alumni Council with these words: "There's a train leaving in 30 minutes. Be under it."

EX-LANCER DAVE HETEMMA has been cut by the San Francisco 49ers.

ROD SHERMAN is looking good in preseason tiffs and seems to have cinched his job as wide receiver for the Oakland Raiders.

DARREL EVANS is hitting a ton for the Richmond Braves in the International League. He will be recalled by Atlanta the first of September and should see some late season National League action as the N.L. West blazes down to the finish line.

BEFORE HE RETIRES Hank Aaron will hit more home runs than Willie Mays.

BILL KILMER, who is lucky to be alive, let alone playing quarterback for the New Orleans Saints, seems destined for a big year.

PERENNIAL BATTING CHAMPS Pete Rose and Roberto Clemente will again sit atop the N.L. averages at season close. So says Old Hankus.

EX-DODGER RON PERANOSKI is far out in front for the relievers trophy in the American League. Ron had seven wins and 21 saves for a 28 point total, seven ahead of Dennis Higgins. Cecil Upshaw of Atlanta and Houston's Fred Gladding are tied for N.L. honors with 25.

SANDY VANCE is having his troubles pitching in the Pacific Coast League. The ex-PHS ace is just 2-6 with Spokane and has an inflated 5.02 era.

NO YOU SUPPOSE IRVING NOREN misses his professional managerial duties? After all, it could be worse than spending the summer in Hawaii as manager of the Islanders in the PCL.

DO YOU KNOW HOW TO STOP STUDENT PROTESTS? Make them required courses. THEN THERE IS THE STORY about the premature publication of the obituary of a coach. The coach called the editor, who was his worst critic.

"Hey," shouted the coach. "You ran my picture and said I was dead. I'd say you forgot an important fact." "You're right," the editor replied. "Everyone will want to know where you're calling from."

QUESTION... Can Dick Bass and Tommy Mason put enough pazzaz in the Los Angeles Ram attack to beef up an almost non-existent offense? If not, there doesn't seem to be any way the

Rams can hope to win their division title. There are times they must outscore the opposition and not rely on the front four to do the job.

First Smog Alert Called August 20

First smog alert of 1969 was declared by the Air Pollution Control District Wednesday, August 20, with ozone concentration peaking at .62 part per million parts of air in the West San Gabriel Valley area.

Louis J. Fuller, county air pollution control officer, attributed the heavy smog to accumulation of automobile emissions due to a persistent low temperature inversion, bright sunlight, and the failure of strong sea breezes to materialize.

Also registering alert levels were East San Gabriel with ozone concentration reaching .54 ppm, and the East San Fernando Valley with .53 ppm.

Photochemical smog results from a reaction between hydrocarbons (unburned or partially burned gasoline) and oxides of nitrogen (emitted mainly from the county's four million motor vehicles) in the presence of sunlight.

Other areas registering high ozone readings were: Downtown Los Angeles (.25), Southeast Los Angeles Valley (.21) and Pomona-Walnut Valley (.34).

Duration of the county-wide first stage smog alert was three hours.

Les and Margarette Dugan of Sierra Madre celebrated 28 years of marriage on August 17. Owners and operators of Reece Variety Store, they were married in Yuma, Arizona. Congratulations to you both!

You and Your Neighbors

Robert and Mary Taillae just returned from a week's vacation during which they drove northward in a leisurely manner getting as far as Concord before turning around and heading homeward. Generally enjoying themselves, they stopped at several lovely places including Carmel and visited relatives along the route. The three Taillae children, Michelle (9½), Jeff (8½) and Jeannine (1½) spent the week with Mr. and Mrs. Robert Taillae, Sr. They are former Sierra Madreans who have been making their home in Ramona (that's near San Diego) for the past year. After Bob and Mary returned the whole family went to Sea World where they spent an enjoyable day.

Before we forget, Late Birthday Greetings to Robert, who celebrated his birthday on July 18 with a family party.

Mr. and Mrs. Patrick (Jacqueline) Iacino and two sons, Robert (16) and Anthony (7) of Jersey City, New Jersey flew out to visit our fair city for a few weeks. This is a first time visit for them and they are quite taken with our state and our town. (What else?) While here they are staying with Patrick's brother and family, Antonio and Mary Iacino of 159 Wilson. All are having a marvelous time with sightseeing and visiting. If you remember Mary Iacino is the little lady who sent a delicious, decorated Easter Bread to President Nixon and received a lovely letter of thanks in return.

— ☆ —
Mrs. Frank (Carol) Kuch.

enski celebrated her birthday this last Sunday, August 24 with a family get-together. Those present were Carol's parents, Mr. and Mrs. Robert Almsworth; her sister, and brother-in-law, Mr. and Mrs. Perry (Marian) Osborne and Kirk, Carol Ann and Paul. All live in Sierra Madre. By the way, this was Mr. Almsworth's first outing since his bout in the hospital. Nice to find out he's starting to get out and around.

Many happy birthday greetings to Carol — even if she still has to be Chief Cook, Bottle Washer and Cake Baker on her own birthday. Won't be too long before the boys will be big enough to try and bake Mom's cake.

Last Chance To Signup For PCC

August 29 is the last day to apply for a full-time program and to have all required transcripts on file for the fall semester at Pasadena City College, which begins September 15, according to Dr. Irvin G. Lewis, dean of student personnel services. Those wishing a part-time program must apply and have documents on file by September 5.

Figures to date indicate an increased enrollment for the fall semester, and prospective students are urged to enroll promptly to avoid long lines and closed classes during the final days.

A wide range of classes — to upgrade job skills, to learn a language, to develop a hobby, or to attain degree credits — is offered by the 16 departments at Pasadena City College.

Editorially. Speaking

We Think of 1970!

Former Assembly Speaker Jesse Unruh has said he does not intend to run for the U.S. Senate and leave the Democratic primary election gubernatorial field to San Francisco Mayor Joseph Alioto.

A few days ago the story was out — without confirmation or denial — that Mayor Alioto was going to be gubernatorial candidate Jesse Unruh's campaign chairman.

Congressman John Tunney, back from advising Senator Ted Kennedy on how to handle himself following the unpleasantness surrounding the Boiler Room party has let it be known through aides that his campaign plans haven't changed either — and he has been rumored a candidate for everything from the U.S. Senate to Lt. Governor.

Almost no matter where you look the Democrats have a problem, the Republicans are zeroing in on trying to capture the U.S. Senate, President Nixon is confounding his political critics, and the best thing that can be said if you are a Democrat is that most of the problems seem to be piling up a year ahead of the 1970 congressional elections and things might get better.

Over on the Republican side during this off political season hopes are rosier, but political leaders in both parties know that President Nixon must continue to get resolution of the Vietnam mess and get control of the cost of living. Given the advantage of real progress on these two fronts the Republicans will be in excellent shape for the 1970 races. Should either or both of the problems worsen, the GOP could have serious troubles during the mid term elections of President Nixon's administration.

In California the pattern isn't quite in the national pattern. No matter who his opponent is, Governor Ronald Reagan will be a tough man to beat, as will U.S. Senator George Murphy.

The Republicans, in California as everywhere else the opportunity is present, will also be making an all-out bid to keep control of the two houses of the State Legislature, for it is the Legislature elected in 1970 which will do the congressional and legislative redistricting in 1971. And as any political pro will attest, one man, one vote doesn't mean a thing when it comes to drawing district lines — the name of the game is who is drawing the lines.

So goes the political whirl-a-gig a little over a year before decision time. By the time of the elections, things may have turned over another 14 times!

★ ★ ★ ★ ★

Good Labor Day Omen

As Labor Day approaches there is hopeful evidence that the nation may be entering an era of labor peace. Relative peace, perhaps, but in marked contrast to the situation in past years.

The evidence comes from Washington, where a general feeling is growing that the Nixon administration may have found the key to settlement of labor-management disputes without costly delays or destructive strikes.

Labor Secretary George P. Shultz explains it this way. Over the years it has become increasingly easy to carry disputes clear up to the White House, with the result that neither side makes its best offer to start with. That is saved until the issue gets all the way to the top, so the dispute drags on and the economy suffers.

Under the Nixon policy responsibility for settlement is kept right where it belongs — on the shoulders of the disputants. Instead of intervening, the federal government mediates. And federal mediators have proved to be tough, practical men who keep bargaining going until an agreement is reached.

That the system works is indicated by the fact that during the first five months of 1969 strike idleness amounted to 14.3 million man days instead of the 23.5 million for the same period last year. Crippling walk-outs in major industries, such as those threatened in the railroad signalmen's and the longshoremen's drive for better contracts, were either prevented or brought to a quick end.

What actually seems to be happening, of course, is a return to true collective bargaining. And that is a good omen to celebrate on this Labor Day.

★ ★ ★ ★ ★

Will You Be Here?

California's urban areas will have 880 people to the square mile by the year 2000 A.D. and Los Angeles alone will house 20 million residents in an urban area that will cover more than 5000 square miles.

So says the U.S. Department of Housing and Urban Development.

The Department has been studying these things, and predicts a nationwide population increase of 101 million in the next 30 years.

The biggest increase will be in the south and west. By and large, that means us.

Los Angeles will be the country's second largest metropolitan area, topped only by New York with 24.8 million. The San Francisco Bay Area will be the fourth largest with 7.7 million.

This may explain in part the \$263,000 contract awarded to the National Academy of Science and the National Academy of Engineers to participate in "Operation Breakthrough" being conducted by the Department of Housing and Urban Development.

Operation Breakthrough has as its goal faster, better and cheaper house design.

While this is going on Los Angeles is also preparing for the future by putting the finishing touches to a master plan for the city.

Nearly three million people have made their home in Los Angeles without anyone planning how they should do it.

As a result a new type of city emerged where mobile suburbanites sprawl over some 500 square miles. This would appear to be preferable to the crowded, mass-commute lives of some other cities.

But the planners feel this cannot continue. They say Los Angeles will ultimately come to a grinding halt.

Basically the planners want Los Angeles to become a series of centers, with residential, commercial, and employment concentrated in individual clusters linked by a rapid transit system.

The idea is to protect the single family home. Let's hope it works, and if 20 million people are to live there, that Operation Breakthrough becomes a resounding success.

SENSING THE NEWS

AROUND THE U. S. CAPITOL

President Richard Nixon has done a lot to clean up the mess in Washington since taking office last January, but he apparently listened to the wrong advisers when he gave his approval to the so-called "family security" plan. The plan, as announced by Mr. Nixon, would vastly enlarge the dependent population in the United States and would gravely undermine the principle of self-reliance on which this country was built.

The Nixon administration is correct in thinking that the existing welfare system is hurtful. But the remedy consists in revising and abolishing the old plan, not in creating a huge new subsidy system. As outlined by the administration, the plan would provide an income floor — a subsidy, that is — for families below a certain level. For the first time there would be a federal minimum floor for welfare recipients — \$1,600 for a family of four.

A pleasing feature of the Nixon administration's proposal is that a recipient of a subsidy would have to take a job when it is offered, if he were deemed qualified. But initial announcement of the plan does not reveal whether the family aid would be automatically cut off if the aid recipient did not accept the job.

The subsidy plan is disturbing from several angles. First of all, it would double the number of individuals receiving a federal handout. The total would rise to more than 23 million Americans. It is shocking to think that anyone would propose that more than 10 per cent of the U. S. population be subsidized by Uncle Sam. If these were dark, depression days such a burden might be understandable. But these are times of general prosperity and unequalled opportunity for gainful employment. No reason exists why 10 per cent of the country's population should be supported by the taxpayers.

Furthermore, as outlined by the administration, the "family security" plan would virtually double the cost of existing welfare programs.

This, in itself, suggests that the plan is without merit. The taxpayers are faced with increasingly heavy burdens on the city, county, state and federal levels. The last thing they need or want is a doubling of welfare costs.

Looking at the proposal from the standpoint of principle, the plan seems wholly wrong. The United States is an enterprise country. This means that each citizen has responsibility for bettering himself and making a place for himself in the world. A subsidized drone population simply has no place in the American scheme of things. It is a feature of a socialist society that holds each man must look to Big Government for his economic development and well being.

Considered from the practical aspect, the "family security" plan undoubtedly would lead to the emergence of a vast, new bureaucratic apparatus. Effective administration of the plan would require close supervision of aid, but this would seem almost impossible in view of the millions of people involved.

The administration has hit on a clever name in "family security program," but informed citizens will realize that it is simply the old guaranteed annual wage proposal in fancy dress.

Conservative opposition to the subsidy plan should not be described as being of the kneejerk type. Dealing realistically with the nation's drone population is a pressing problem. Many different approaches should be considered. But the truly sound approach, in the judgment of most conservatives, involves step-by-step cutbacks in welfare assistance to able-bodied poor people.

The existence of federal aid, whether of the existing welfare type or through a "family security" plan, is what encourages people to avoid gainful employment. The government should not plant the idea that it will assume responsibility for uplifting people. That re-

**Altadena Woman's
Club Juniors To
Install Chairman**

Mrs. David Osborn, president of the Altadena Woman's Club Juniors, was installed as a chairman for the Verdugo Metropolitan District, California Federation of Women's Clubs, Junior Membership, at a round-table dinner meeting Monday evening held at the Pasadena Woman's Club, 58 So. Sierra Madre Blvd.

Newly appointed District chairmen were installed by Mrs. W. O. Dandurand, Verdugo Metropolitan District first vice president. Evening in Istanbul was the theme of the event, hostessed by the Pasadena Juniors.

Other highlights of the evening included a "Chinese Auction" conducted by Mrs. Fred Vogelsang, District third vice president. Attending the District dinner were: Mrs. Dennis Doyle, Mrs. Wayne Stover, Mrs. Rudy Summers, Mrs. Cliff Finnie, Mrs. Thomas Morrissey, Mrs. Kenneth Bertonneau, Mrs. Ronald Annand, Mrs. Edward Mitchell, Mrs. Roy MacMillan, Mrs. David Osborn, Mrs. Dean Norris, Mrs. Richard Textor, Mrs. Bunny McGraw, Mrs. Jerry Howard and Mrs. Thelma Camp.

**Services Held For
Mrs. Ann Quinn**

Recitation of Rosary was held Sunday, August 24 at the hour of 7:30 of Mrs. Mary Ann Quinn, age 80 years, who passed away Thursday, August 21, at the Arcadia Methodist Hospital after a brief illness.

Mrs. Quinn lived at 220 Churchill Glen in Sierra Madre having come to California some 52 years ago from Ireland and lived here about 15 years.

Requiem Mass was Monday, August 25, at 9 a.m. in the St. Rita's Church, with Reverend Thomas O'Malley officiating.

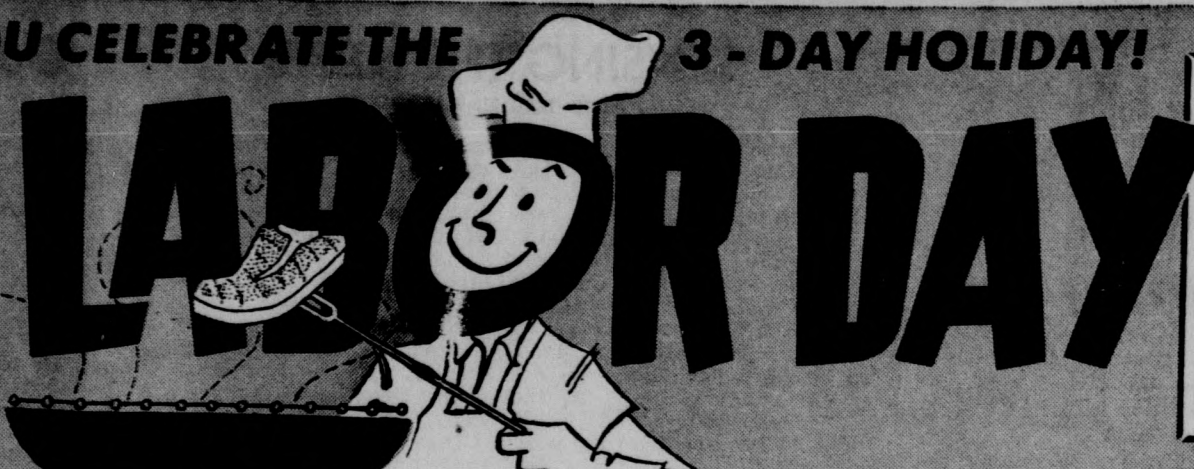

She leaves to mourn her passing three sons, Pat Quinn of Sierra Madre, John Quinn of Pasadena and Richard Quinn of Sierra Madre and two daughters, Mrs. Theresa Daley of Sierra Madre and Mrs. Marie Sechrist of Lake Gregory. 10 grandchildren and five great grandchildren.

Interment was in Resurrection Cemetery in So. San Gabriel with Ripple Mortuary in charge of arrangements.

Thursday, August 28, 1969

New Minister To Deliver 'What Is Salvation?'

The message at the 10:20 a.m. service this Sunday will be delivered by Rev. Stanley Reed, newly appointed Minister of Christian Education at Bethany Church of Sierra Madre, located at 93 N. Baldwin.

"With new and fully developed means of communication in our space age world," states Mr. Reed, "it seems impossible that anyone in the confines of territorial United States should have a dwarfed concept of the full meaning of Salvation as it pertains to the Christian. However, every day I run into people who do not understand what a 'salvation experience' includes." In commenting further, Mr. Reed says, "Some of this confusion comes because Jesus Christ meets us at the point of greatest need and this greatest need is as different as people's experiences and problems are different. Jesus Christ is security to the insecure; peace to the troubled; joy to the unhappy; purpose to the aimless; companionship to those who feel alone; escape to those who are tempted; freedom to those who are guilty and on and on we could go."

The message title, "What Is Salvation?" will give you Bible concepts that are the possession of all true believers in contrast to the varied feelings that individuals experience when launching their new found faith.

Birthday department — Two August birthdays among the brood calling Mrs. Emily Embree "Mom." They are Eugene, who became a teenager when he turned 13 on his August 9th birthday and eldest Embree offspring, Tom who observed his 22nd birthday on August 27. Tom and his wife would have celebrated the occasion in Panama, where as a Captain in the Army, he is presently stationed. apply birthday to all!

Keith Phillips To Speak Sun., Aug. 31 At Bethany Church in Sierra Madre

Mr. Keith Phillips, National Director of the Collegiate Corps of World Opportunities, Inc., a young and dynamic youth speaker will speak at 7:00 p.m. service at Bethany Church of Sierra Madre, located at 93 N. Baldwin Avenue on Sunday, August 31.

Mr. Phillips is a graduate of UCLA, and has been actively engaged in day-to-day work with youth from all walks of life for the past six years. He is young enough to communicate with youth, yet old enough to speak with authority to adults on the problems which America faces today.

Dr. Roy McKeown, President of World Opportunities, Inc. says of Keith: "He is one of the few young men today that is able to speak with authority on the ghetto problems in the United States. His regular activities take him into association weekly with many many minority groups."

Keith won a speaking contest sponsored by the Southern California Optimist Clubs, he was one of the winners of the Youth for Christ International speech contest; he was West Coast winner for the Odd Fellows speech contest, which resulted in a six-week tour of America; and he has served for the past six years, as Club Director for Downtown Youth for Christ.

Working with World Opportunities, Keith trains and directs approximately 500 college students who work on a weekly basis in urban Los Angeles, with more than 19,000 young people each month.

During the summer of 1968, Keith made an extensive 16-week tour of the Orient under the auspices of World Opportunities, where he had the unique opportunity of speaking for and visiting with missionary agencies, in Korea, Japan, Hong Kong, Taiwan, Singapore, Thailand and the Philippines. While in Tokyo, he spoke in 85 of the 90 universities that are located in that city. He also delivered the keynote address at the

Program By Bible School Children Aug. 28

Culminating two weeks of Vacation Bible School activity, the children of aFith Lutheran Church, 845 Hastings Ranch Drive, Pasadena, will present a program to parents and friends this Thursday evening at 7:30 in the church sanctuary. Following the program a reception will be held in the patio area where the children's art projects will be displayed.

During the 10 Sunday morning worship hour, the Rev. Armin Hesse will address the congregation on the topic, "When Love and Trust Reach Out," based upon the incident when the Prophet Elijah was fed by the widow of Zarephath. Last Sunday during the worship service the congregation had the opportunity of meeting Mr. Jerry Nielsen who will be the congregation's new Director of Education and Youth. Mr. Nielsen comes to Faith from Grace Lutheran Church in Los Angeles where he served as principal and teacher of the Lutheran school. His duties will begin at Faith on September 1st.

Seen dining at the Holiday Award Winning Michel's restaurant in Honolulu, Hawaii were Mr. and Mrs. J. L. Feeney of Sierra Madre. They have been spending a leisurely vacation at the Colony Surf Hotel on Diamond Head Beach.

Attend the church of your choice every Sunday.

Fire Call

that a small grass fire was in progress behind 60 East Laurel. This was the third grass fire for this location in the past few months, and the second such fire while the Volunteers were servicing another Forest Fire Call.

Both of the above fires origination is not definitely known, but are under investigation of the Fire Prevention Bureau.

Twenty Regular Firefighters and three Reserves were on hand for the second call which was extinguished with a garden hose, it being practically out on arrival.

Two Firefighters were injured on the first call, Fireman Michael Tyler falling and pulling muscles in his right arm, and Fire Marshall Ludden received a scratch in the eye ball from branches. Tyler was treated at the medical center, Ludden was given examination to determine any injury and both were released.

Fire Chief Charles Brown declared no damage loss by the fire, ordered the equipment picked up and Engines and Personnel to return to the station, replace dirty hoses and wash and place on the drying racks. Engines were secured at 4:58 p.m. and men released.

These were fire calls Numbers 63 and 64 for the year as compared to Number 37 at this same time last year.

The third alarm of the current week was sounded at the hour of 6:35 p.m. Friday evening to 529 Mariposa behind the apartments at 520 West Sierra Madre Blvd. Engine 423 arrived at the scene of the fire on Sierra Madre Blvd. in two minutes and 10 seconds and Engine 424 arrived at the Mariposa address 15 seconds later.

Upon arrival both engines found a four-car garage in full involvement and it was immediately necessary to commit both Engines to the fire and call for Mutual aid from the City of Arcadia who immediately rolled an engine into our station.

The property involved in the fire belonged to 509 Mariposa to the Guy Steinberger property whose residence is Upland.

Because of the high intensity of the smoke coming from the structure fire, the County of Los Angeles thinking the hillside were afire dispatched one engine from station 66 in Altadena and at the same time dispatched their fire helicopter.

With both engines working, having together, laid 1050 feet of 1½ inch hose and 850 feet of 2½ inch hose, using approximately 6,500 gallons of water contained the fire in 14 minutes and 22 seconds. Truck 421 and Car 426 responded to the alarm.

Chief Charles Brown estimated the damage to the building without full knowledge of its valuable contents at between \$2,000 and \$2,500 with a close by building becoming scorched during the fire progress.

The apartment houses on W. Sierra Madre Blvd. are owned by R. K. Palmer with a Mary Klas as building manager. Jay Joseph Swartz of 3775 Latrobe, Los Angeles started the smoke and called in the alarm.

Twenty three Regular Firefighters and four Reserves answered the alarm and were dismissed from the fire by Chief Charles Brown at 7:45 to return to the station and clean up the equipment for the next call, final dismissal was at 8:20 p.m. An Ambulance was standing by with one Firefighter injured and taken to the hospital.

Again, and the fourth alarm of the current series came at the hour of 10:52 the same evening, Friday when your Volunteers were called to the Chantry Flat Ranger Station to assist the Forest Service in another brush fire in that area.

Engine 424 answered this alarm and reported at the scene of the fire in six minutes 49 seconds to the top of Chantry Road, but found that it was out on arrival, having been taken care of by the U. S. Forest Service and was an area of about 50' by 100'.

Engine 423 and 425 with crews were on standby at the station, Car 426 and Trucks 422 and 421 responded to the call.

Twenty three Regular Firefighters and two Reserves answered the alarm, and were dismissed at 2:30 to return the equipment to the station ready for the next alarm. Engine 423 was on standby at the station with truck 421, 422 and Car 426 responding to the scene of the fire.

This was Fire Suppressions 67th call for the year as compared to 39 at this time last year.

(Additional fires, if any, will be found on Page 5)

Mental Health Goes United Way

The Mental Health Association of the Pasadena Area has been admitted as a member agency of United Way, it was announced today by Foothill United Way Chairman Don Ehr.

"This is the culmination of approximately 18 months of intensive study and work by the Foothill Area Agency Operations Committee under the Chairmanship of Ed Strong," Ehr pointed out.

The Mental Health Association was approved for admission one year ago following a six month research period by members of the Agency Operations Committee and a Community Planning Council study to determine if the agency met all admission criteria. Their admission was approved dependent upon availability of funds.

In January of this year budget hearings were held with the agency by the volunteer budget committee. This was the same intensive budgeting session that all United Way member agencies participate in each year. The budget committee recommended they be funded and then requested priority funds in the amount of \$12,148 for this purpose.

"This is another step in the continuing effort of United Way to provide an effective network of voluntary health and welfare services to the community," Ehr said.

"The program of this agency is meeting an urgent need in our area and their service is unique and effective. Their admission will strengthen the existing services in the Foothill Area now supported by United Way."

"In addition, Ehr stated that this agency will now be included to receive financial support from the annual United Crusade Campaign to be conducted this fall.

The Mental Health Association of the Pasadena Area was organized in 1963 as the first step in a long-range plan for a comprehensive community mental health program for adults. It maintains a Mental Health Center where professional volunteers and trained volunteer aides offer crisis intervention therapy, counseling, information services and referral services. Its 29 man board of directors is under the chairmanship of Richard E. Thomas. Its administrator is Mrs. Romaine V. Edwards.

Professional staff of the association have trained 54 volunteer aides who handle crisis intervention cases of a short term nature, evaluate cases and make referrals. In addition, its 45 professional volunteers work with more difficult and longer term cases.

You will receive a blessing when you call 447-6162. September 11 at 8 p.m. — John Morley, "I Saw Today's Headline World."

Congratulations to Christopher Embree, son of Mrs. Emily Embree of Sierra Madre who ended his bachelor days August 12 when he took the former Virginia Crill as his wife. Marriage took place in Breeze Chapel in Pasadena. Young couple will make their home in Pasadena.

Dr. William Sanford Guest Minister At Congregational Church Aug. 31

Sierra Madre Congregational Church will be honored to have as visiting Minister next Sunday, August 31, for the 11 a.m. worship service, Dr. William Sanford La Sor, noted scholar, writer, and lecturer. Dr. La Sor is Professor of Old Testament at Fuller Theological Seminary in Pasadena, which position he has held since 1949.

Dr. La Sor earned his B.A. degree from University of Pennsylvania, then went to Princeton University where he was awarded a Masters degree in oriental languages and literature. He is a graduate of Princeton Theological Seminary with both a Bachelors and Masters degree in Theology. He is also the holder of a Ph.D. and a Doctorate in Theology, the latter from University of Southern California.

He has served churches in the eastern United States, and during World War II was a Chaplain in the Navy with service in China. At the

Lesson Sermon Sunday, Aug. 31

"Christ Jesus" is the subject of this Sunday's Christian Science Lesson-Sermon. It includes these verses from Philippians: "Let this mind be in you, which was also in Christ Jesus: . . . For it is God which worketh in you both to will and to do of His good pleasure."

A passage from "Science and Health with Key to the Scriptures," by Mary Baker Eddy refers to Christ Jesus: "His purpose in healing was not alone to restore health, but to demonstrate His divine Principle. He was inspired by God, by Truth and Love, in all that He said and did."

Lesson-Sermon Title Is 'You And Your Job'

"You and Your Job" is the title of the lesson sermon on August 31, 1969 at The Santa Anita Church, 226 West Colorado Boulevard, Arcadia, Margaret M. Stevens, Minister. The service is at 11 a.m. and all are welcome to attend our services. Infant and child care is provided.

After a fifteen minute worship service in the sanctuary at 11 a.m. children from pre-school through seventh grade go to graded classes which are led by dedicated teachers. The young adults hold their meetings on Sunday evenings at 7 p.m.

All women are invited to attend a class in successful living every Thursday at 11 a.m. led by Rev. Stevens. There is either a time of fellowship or work project after the class and a time for prayer requests.

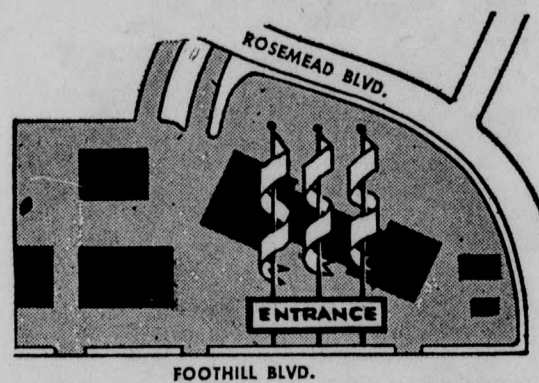

The Ethel Barnhart School offers a unique educational program from kindergarten through eighth grade. The Carden Method of Reading and Comprehension is offered as well as a class in religious education. Call 446-8206 or 446-5888 for further information.

There will be adult fall classes beginning October 13 of value to new students and to those who have had many courses in New Thought principles. Brochures will be available soon.

You will receive a blessing when you call 447-6162. September 11 at 8 p.m. — John Morley, "I Saw Today's Headline World."

Congratulations to Christopher Embree, son of Mrs. Emily Embree of Sierra Madre who ended his bachelor days August 12 when he took the former Virginia Crill as his wife. Marriage took place in Breeze Chapel in Pasadena. Young couple will make their home in Pasadena.

Barbecue On August 21st

The beautiful garden patio and grape arbor of the Walter Nollac home, on East Grandview in Sierra Madre, was the setting for the Sierra Madre Community Hospital Auxiliary barbecue, on the evening of August 21. Guests included the husbands of active and associate members of this volunteer organization. Included also were Mr. and Mrs. Carl Hobson, president of the board of directors of Sierra Madre Community Hospital, and Mr. and Mrs. Jack Eisenhart. Mrs. Eisenhart is administrator of the hospital.

A social hour preceded the enjoyment of delicious food. The barbecue "chef" duties were ably performed by Mr. Arthur Maric. Assisting the gracious hosts Mr. and Mrs. Nollac were Mrs. Harry Wharton, Mrs. William Stoddart, Mrs. Arthur Maric, and Mrs. Harry Crosh.

Musical entertainment was provided by a group of students from the studios of Music for Everyone. Adding further enjoyment to the evening was the moonlight, and lovely view from the garden.

Security Pacific National Compiles Economic Trend

Statistics compiled by the Economic Research Department of Security Pacific National Bank reflect particularly strong 1968-69 gains for Southern California in spending, business loans, total construction, jobs, home-building and department store sales.

Security Pacific has reported an overall advance of 12 per cent in business activity, based on comparable first-half averages for this year and last.

Activity index averages are up 27 per cent in bank deposits, 21 per cent in business loans, 18 per cent in total construction, 15 per cent in homebuilding and 13.5 per cent in department store sales.

Increases of 9 to 11 per cent have been calculated for demand deposits, retail sales, building permits and real estate loan volume. Also are industrial power sales (4.6 per cent), manufacturing payrolls (3.0 per cent) and employment (2.7 per cent).

The unemployment rate this year is averaging at just slightly more than 4 per cent, an improvement on the average of about 4.5 per cent for the first half of 1968.

Consumer price index figures are averaging 4.3 per cent higher than a year earlier. Mid-1969 population in the 10 southern counties is estimated at 11.8 million, up 200,000 since mid-1968.

Declines have been registered in aerospace employment (-6 per cent), real estate sales (-2.6 per cent) and permit authorizations for single-family homes (-2.5 per cent). Petroleum production is down fractionally. Business failures are running five per cent lower than a year ago but 22 per cent above figures for the second half of last year.

The Security Pacific Bank report summarizes first-half activity in all sectors of the economy, including:

Out of the Cobwebs

Sixty Years Ago: August 20, 1909

Riding on the Ventura-Nordhoff train last Saturday while on the way to Matilija Springs the editor of the News in the course of a casual train conversation made an interesting acquaintance in the person of L. J. Rose, Jr., who will be remembered by most of the older residents of Sierra Madre. His present home is near Oxnard, but he formerly lived on the famous Sunnyslope ranch southwest of Sierra Madre. His father at one time owned most of the Sierra Madre tract.

Miss Edna Clark of Ventura spent Thursday with Miss Alma Gilbert.

A little daughter was born to Mr. and Mrs. W. E. Deutsch last Saturday, whereat "Papa" Deutsch has been receiving the congratulations of friends. Marjorie is the name selected for the baby.

Mr. and Mrs. George Crowe gave a picnic party in the little Santa Anita canyon last Friday. The

guests were Mmes. Staples, Holahan, Kimball and Miss Lyon.

Mr. Thomas Frye of Highland visited this week with his aunt, Mrs. S. K. Wright, and his cousin, Miss Helen Wright, at Wheeler Heights.

Miss Clarice Merrell has resigned from her position as teacher in the local schools and her resignation accepted with regret by the school trustees. Miss May Blakeman, niece of Mrs. C. B. Jones, has been elected to the vacancy. Miss Merrell will teach in the Los Angeles city schools this year.

Miss Meta Rice left Saturday for Oxnard, Ventura county, where she will take charge of the manual training, drawing and sewing departments in the Oxnard schools the coming year.

Mrs. Lydia Anderson and Misses Marguerite Anderson and Anna Jansen went today to Long Beach for an outing by the sea.

Forty Years Ago: August 23, 1929

Phil Hartman, owner of the Orchard Camp on the Mt. Wilson Trail, is beginning to ballyhoo next year's race from Sierra to his camp, and states that he is receiving a great deal of encouragement from hikers who participated in the recent race and others. There were seventy-five hikers in last spring's race and from the interest now displayed that number will be doubled next year. Mr. Hartman has suggested that Sierra Madre provide a silver loving cup, to be awarded permanently to the first person who wins the race three years in succession.

Mrs. Elizabeth A. Stoppel of 165 East Mira Monte Street, and her two sons, Joseph and Reuben Weiss, returned Thursday from a three days trip to San Diego and vicinity.

Mr. Seaman and family of N. Mountain Trail have returned from their week's vacation to San Francisco, Berkeley, and even San Quentin, Mr. Seaman states. At the latter place they were admitted only to the

Flood Work To Start In Area

An apparent low bid of \$486,415 has been turned in by Zambica Bros., Inc., of South El Monte for construction of additional storm drain facilities in the Pasadena area.

Supervisor Warren Dorn said the offer was low among eight submitted to County Flood Control District Chief Engineer Walter J. Wood. High bid ran \$627,562.

The bids will be given a quick review by District engineers and the Board of Supervisors is expected to award a contract in about ten days.

It will call for construction of projects Nos. 726, unit one, and 6201, unit one, Dorn said.

Routing will be in sections of Algeria, Paloma and Casa Grande Streets: Hastings Ranch, Altadena and New York Drives; Brigid, Kinneloa Canyon and Old House Roads; Craig, Paladora, Sierra Madre Villa and Lomora Avenues; and Orange Grove Boulevard.

Financing was included in the \$275 million storm drain bond issue approved by voters in 1964.

Work will start within thirty days after the contract award and take about four and a half months to finish, Dorn said.

Average California consumer eats over three-quarters of a ton of food each year.

St. Louis To New Orleans

Via Mississippi River By Two Sierra Madreams Al Mondorf & Tony De Clue

People keep asking us why we want to go down the Mississippi on a raft. We tell them it's because we've never done it before. It's the best answer, because it saves a lot of explanation which they wouldn't understand anyway. Most of them go away, shaking their heads and muttering about how rough it must be, snakes in the river and all. We've been fortunate that way. We've seen only two snakes, before they saw us. Tony did in a water moccasins in the water by Greenville, Miss., and I took care of a sidewinder on a sandbar. We were fortunate enough to have bought a pair of machetes in Memphis. They turned out to be more than just toys.

We have made one rather interesting distinction in the people down here. There are River Folk and City Folk. In the larger towns we've stopped in, the people have been friendly, but they don't compare with the River People. The River People are a bit more.

The people who live on and make their living off the river by fishing or lumbering, are in general a poor people. Yet even with their poverty they have an intense pride; they are too proud to steal. They wouldn't think of it. We've been given catfish by fishermen who really could have used the 40 cents a pound it would have brought them.

If you need help, and we have on occasion (flipping over the raft when we built it), they'll help you, and not waste your time with advice, like most people. If, however, they know you have the time, they'll make the time to talk to you. You can tell they enjoy your company for more than passing the time of day.

We've been meeting a great number of people, about 10 so far, who are going down the Mississippi, too. We spent some time with a brother and sister from Dubuque, who were travelling by canoe. We've met two couples doing the trip by power boat, and a man in a kayak, that could get pretty rough.

We're running out of time, a common problem on trips like this. We may have to en dour voyage in Baton Rouge instead of New Orleans. We won't mind though. Talking it over, Tony and I decided that we've had more good times on this river than we should rightfully expect. It could have ended long ago, and we wouldn't have minded.

Mr. and Mrs. George Tanabe returned August 14th from a month of visiting with friends and family in Japan. Mr. Tanabe says that the city of Tokyo with a population, he guesses, at about 11 million, makes Los Angeles look like a little county village. Traffic, people, smog and modern buildings and transportation are everywhere. Even two levels underground you will find modern shopping areas. While there they had a nice time and thoroughly enjoyed their vacation... but you know, it's always nice to get home again.

LEGAL NOTICE

T 45344
NOTICE OF TRUSTEE'S SALE
NO. 1395

On September 16, 1969 at 11 o'clock a.m., at the arcade entrance to Gibraltar Tower, Gibraltar Square, Wilshire at Hollywood, located at Beverly Hills, California, SECURITY ALLIED SERVICES, as Trustee under the Deed of Trust made by ADDISON HARRIS and EVELYN HARRIS, husband and wife as Trustor and in favor of GIBRALTAR SAVINGS AND LOAN ASSOCIATION, a California corporation, by reason of the breach of certain obligations secured thereby, notice of which breach was recorded April 14, 1969 in Book M3185 Page 538 of Official Records, will sell at public auction to the highest bidder, for cash payable in lawful money of the United States, at the time of sale, without warranty as to title, possession or encumbrances, the interest conveyed to, and now held by said Trustee, under said Deed of Trust, in the property situated in Los Angeles County, California, described as:

That portion of Lot 16, Block "A" Central Tract, in the City of Sierra Madre, County of Los Angeles, State of California, Book 30 Page 939 of Official Records, in the office of the County Recorder, described as follows:

Beginning at the Southwest corner of said Lot; thence Easterly along the Southern line thereof a distance of 75.00 feet to the Western line of the Eastern 22.00 feet of said Lot 16; thence Northerly along said Western line 80.00 feet to the Northern line of the Southern 80.00 feet of said Lot 16; thence Northerly line to the Eastern line of the Western 70.00 feet of said Lot; thence Northerly along said Eastern line 110.00 feet to the Northern line of said Lot 16; thence Westerly along said Northerly line 70.00 feet to the North-west corner of said Lot; thence Southerly along the Western line of said Lot 190.00 feet to the point of beginning.

for the purpose of paying obligations secured by said Deed of Trust, including fees, charges and expenses of the Trustee and of sale.

SIERRA MADRE NEWS
NOTICE OF
PUBLIC HEARING

NOTICE IS HEREBY GIVEN that the City Council of the City of Sierra Madre will conduct a public hearing on Tuesday, Sep-

LEGAL NOTICE

tember 9, 1969, in the City Council Chamber of City Hall, 35 West Sierra Madre Boulevard, Sierra Madre, California, at 7:30 P.M. The purpose of the hearing will be to hear testimony pertaining to the proposed exchange of a City parking lot located on the east side of the 100 block of South Baldwin Avenue for a new and fully developed parking lot of equal number of spaces on the southeast corner of Baldwin Avenue and Sierra Madre Boulevard. The legal description of each of these parcels is on file at City Hall for reference. If the Council determines that the proposed exchange is in the best interest of the City it may declare the existing City-owned lot no longer necessary for public purposes and that the same may be exchanged or sold under the Vehicle Parking District Act of 1943.

All persons wishing to address themselves to this subject are welcome to do so at the public hearing.

BY ORDER OF THE CITY COUNCIL
L. Marie Wartel,
City Clerk

In the reluctant-to-come-home department (as I'm sure all vacationers are) and back this past weekend from Welland, Ontario, in Canada are Mr. and Mrs. James (Lucille) Hall and daughter, Debbie. Lucille and Debbie have been in Canada since June 10, but James was only able to join them this last two weeks. Welland is where the Halls are originally from and many friends and relatives still make their homes there... so you just know that there was a lot to catch up on as far as visiting was concerned.

Shop with your local merchant, he'll always treat you right and be available to help you.

Letters To the Editor

Dear Editor:
In November of 1961, A. Sprishevsky, the director of the All-Union Scientific Research and Design Engineering Institute in Russia, bemoaned the fact that the "new surface grinders... manufactured by the Moscow plant for grinders are less accurate than the... machines produced during the thirties. Centerless cylindrical grinders manufactured by the... tool plant are unsuitable for the production of bearings."
In 1962, a fellow Russian, V. Gastev, writing in the "Kommunist," said: "The quality of some types of products is inferior to better world specimens." This was true, for example, in the following areas: "Rolled metal, cold rolled sheets, abrasive tools, precision metal-cutting machine tools." Another area of Russian industry facing similar problems was the manufacture of rubber tires. Many of the problems were created by "inadequate use of the statistical method of inspection and quality control."

In 1966, Representative

Glen Lipscomb of California pointed out that the following items had been cleared for shipment to Russia: Tire cord factories, rubber antioxidants, synthetic rubber, rubber processing machines, boring machines, ball bearings, grinding machines and parts, electrical testing instruments and parts, statistical machines and parts, etc.

The story is simply this — the United States is plugging the gap in the inadequate Russian - Communist machine industry, just as the United States has plugged the gap in the Russian agricultural industry.

It was the Russian leader, Lenin, who once said, "It is necessary to bribe capitalism with extra profits. Capitalism will get the extra profit and we will get the basics (equipment) with the aid of which we will strengthen ourselves and will finally get upon our feet and defeat it (capitalism)." Lenin's prophecy has proved absolutely correct, for Russia has been supplying eighty per cent of the material used by the Viet

Cong to kill American servicemen.

Have you signed a petition to Congress, asking that they stop this treason? Help stop aid and trade with our enemy. For more information, address this writer.

— Richard E. Woodin
Dear Editor:
Major Henry L. Lee, president of the Pasadena Chapter of the Sons of the American Revolution, announces the quarterly Board of Managers meeting of the California Society SAR at the Huntington Sheraton Hotel, Saturday, September 13.

Highlight of the meeting is a noon luncheon with a film of the capture of a U-boat on the high seas presented by Rear Admiral George Casselman (retired). The Admiral commanded a key ship in this engagement and will supplement the films depiction with eye witness amplification. Members of other patriotic societies are invited to the luncheon. Reservations may be obtained by calling 285-1028 or 794-1600.

Over 50 per cent of America's farm products today consist of plants used by the Indians before Columbus planted his flag.

Trend By Security Pacific National Bank

ally adjusted civilian employment in the Los Angeles - Orange County Area averaged 3.6 million during the first half of this year. Manufacturing concerns employed 28 per cent of the total, followed by trade, with 22 per cent; services with 21 per cent, and government, with 13 per cent. Gains in almost all sectors of manufacturing nearly erased the 6 per cent deficit in aerospace employment, which has been declining since it reached a peak in December, 1967. An 18 per cent gain in the number of metropolitan Los Angeles newspaper advertisements for help-wanted was exceeded by a 22 per cent increase in employment advertising lineage.

PERSONAL INCOME — Southern California resident's personal income during the first quarter reached a seasonally adjusted annual rate of \$47.6 billion, up nearly \$2 billion from \$45.7 billion during 1968. "Real per capita income" also reached an all-time high, somewhat diminished, however, by a 4.3 per cent gain in the cost of living and the year's population in-

crease of 200,000.
RETAIL SALES — Taxable retail sales in Southern California's 10 counties reached a record \$4 billion during the first quarter, up 9.5 per cent from the first quarter of 1968 and up 2.9 per cent from the preceding quarter. Increased consumer purchasing power, rising employment and higher prices all contributed to the gains. The bank's index for department store sales has risen more rapidly than have total taxable retail sales. The first-half index average is 13.6 per cent and 9.3 per cent above the first and second-half averages of last year.

REAL ESTATE — An erratic pattern emerges in the real estate market. Sales activity, down 2.6 per cent from last year on the basis of first-half averages, has climbed rapidly in recent months, reaching its second highest level in a year during June. Real estate loan volume is up 9 per cent from the first half of last year but down slightly from the second half of 1968. Market prices for existing single - family homes have continued to increase during the past year.

Attempt To Help the People

Questions and Answers By D.A. Evelle J. Younger

PART II VIOLENCE AND EDUCATION

(Editor's Note: Students, particularly on college and university campuses, are engaging in demonstrations and unlawful acts, and Dist. Atty. Evelle J. Younger is frequently asked questions about this subject. In his column today, Younger answers additional questions.)

by **EVELLE J. YOUNGER**
District Attorney

Q. What is the solution to troubles on the campus?
A. There is no simple, easy solution. However, I do suggest that we adopt an attitude which will have to reflect the firm convictions of all the responsible citizens. Maybe commitment is a better word than attitude, but we must be completely and utterly devoted to the proposition that we are going to achieve needed social reform and, at the same time, insist upon obedience to the rule of law.

We must admit our mistakes and our shortcomings and pour the necessary money, talent and dedication into a massive effort to affect necessary changes. At the same time, we must recognize that there can be no social progress except in an environment where law and order prevails. It is equally true, of course, that without social progress we cannot maintain permanent peace and tranquility in our nation. We cannot hire enough policemen to provide security unless we take steps to eliminate the basic causes of much of the dissatisfaction felt by the young people and other citizens today.

While admitting our shortcomings, and acknowledging the necessity for improvement, we are going to get rid of our inferiority complex and stop apologizing to students and everyone else when we call for an application of police power to maintain law and order.

Q. What about the role of the policeman today on — and off — campus?

A. Law enforcement is the second oldest profession in the world because as soon as man started to move around and meet other men from other tribes, he found himself vulnerable. There was always somebody with a bigger club or a stronger arm to take his wife or cave away from him.

So people hired policemen to do for them what they could not do for themselves. Police are still performing that function today. They are protecting lives and property. The police preserve and protect lives and property and their obligation doesn't end at the edge of the campus.

Furthermore, we must get rid of our inferiority complex and our guilt feeling about something that happened many years ago. We must insist that everyone — whatever their color, whatever their religion, no matter that they may have been the victim of prejudice or discrimination — must obey the law.

We must say, "We are sorry and we are going to try to solve some of our problems. But while we do, everyone — man, woman and child, black, brown, yellow or white — is going to follow the rules."

"And where there is a violation, we will move promptly and vigorously to apprehend and prosecute the persons who commit the violation."

In other words, we are making a total commitment to social progress within the framework of law and order.

Texas Senator Ralph Yarborough, speaking on the School Milk Program, said: "Milk is an indispensable part of the diet of children, and in this bountiful land none should go without it."

Per man-hour output on U.S. farms has increased 82 per cent between 1957-59 and 1968.

CARROT TOP
plans for retirement about the time they've gained adequate proficiency in their vocation or profession. Aside from the value to the individual, the country needs the abilities, energies, and wisdom of the retirees. They've gained knowledge that comes only through experience; it needs to be shared. They've learned tolerance and understanding through the years; the world's crying for it. I keep telling myself, and thus I keep from retiring as the years go by... course I do a good selling job, and so do my creditors.

— CT —
Now getting back to hearing... with all of the new tax proposals to come on the ballot this October and November, despite all you hear about conservation of natural resources in America, the chances are the first resource to be exhausted in the United States will prove to be the taxpayer... and you better believe it, for sure.

— CT —
Speaking about Taxpayers and their money, I just received a report from the Federal Government (I don't see why they let stuff like this get out to worry us) and it said that the following expenditures were made this year: "Mating Calls of Central American Toad Frogs," Cost \$21,200. "Sexual Incompatibility in Higher Fungi," Cost \$4,800. "Social Dominance Behavior of Rodents," Cost \$28,000. "Heat and Water Balance of the Camel," cost \$31,200. "Respiratory Mechanisms of Cultivated Mushrooms," Cost \$8,000. Personally I believe that some appropriation should soon be made for the "Testing of the Respiratory System of the Male and Female Taxpayer." The cost may be heavy but the findings would be astronomically interesting.

— CT —
Last year this little old business paid a little over \$16,000 in taxes of all kinds, so naturally I am a biased person, so I will close this column this week, having just paid my 1969-70 business tax with the following comment:

— CT —
"Do you feel burdened, run down, dark taste in your mouth and wake up mornings feeling that you just can't go on? It's not tired blood, it's tax burden. And remember as you do go to work that the famous golden egg fable is more applicable to American taxpayers today than any other historic period in this nation, because all taxpayers are beginning to feel like the equally famous goose who laid those eggs, I believe, I believe, I believe."
